Learn about this template

Site maps show the structure of a website's content to help users or search engines navigate the site. This site map template maps out an education website. Using a site map will make your website more user friendly and will help you avoid duplicating content.

Use this site map template to:

- Visualize the hierarchy of a website's pages.
- Prioritize what is important content to feature on a website.
- Map out future pages to build on a website.

The site map shape library will help you make your site map quicker:

- Click a shape on the canvas.
- Select the gear icon ⚙️.
- Type out the structure of your website in the text box.
- Click "Clean up layout" to automatically organize the shapes on the canvas.

Pro tip: Add URLs to any element by clicking on a shape, clicking the gear icon ⚙️, and then pasting the URL in the URL bar.
